

## **Wal-Mart Expanding**

Recently, Wal-Mart, Inc. proposed expanding the store located in Exeter Township. The expansion would make the facility 84% larger with an extra 95,000 square feet of space. The new supercenter would include a food market, expansion of the already existing departments, a gas station and tire and auto center. The gas station would be positioned near the KFC/Taco Bell at the corner of Perkiomen Avenue and Lincoln Road. Another action necessary for the expansion is the acquisition of the Weis Market and the currently vacant space next to it. Wal-Mart is currently pursuing that acquisition and representatives of the chain are hopeful that the expansion will happen some time in 2007. Plans need to be submitted and concerns about turn lanes need to be addressed but this project appears to be on its way.
